India Pulses and Grains Association welcomes the decision to extend free rations till November 2020

IPGA Welcomes extension of PMGKAY till Nov.2020, key officials from India Pulses and Grains Association Pravin Dongre, Director and Jitu Bheda, Chairman

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement.

It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heartwarming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement. It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heart-warming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

About IPGA:

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade & industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking it's pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of Pulses across the entire value chain.

IPGA's vision is to make Indian pulses and grains industry & trade globally competitive; and in so doing, help advance India's food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

IPGA Welcomes extension of PMGKAY till Nov.2020, key officials from India Pulses and Grains Association Pravin Dongre, Director and Jitu Bheda, Chairman

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement.

It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heartwarming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

India Pulses and Grains Association welcomes the decision to extend free rations till November 2020

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement.

It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heartwarming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

India Pulses and Grains Association welcomes the decision to extend free rations till November 2020

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement.

It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heartwarming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.

India Pulses and Grains Association welcomes the decision to extend free rations till November 2020

India Pulses and Grains Association (IPGA), the country's apex body for the pulses and grains sector complements the government and wholeheartedly welcomes the announcement.

It is an unparalleled humanitarian gesture and arguably the world's largest distributor of free rations as part of the government's welfare program.

The Prime Minister's announcement on June 30th that free distribution of 5 kgs rice or wheat for 80 crore individuals and 1 kg of the whole chana for every vulnerable family (over 18 crore families) per month under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) will continue beyond June for five months till November is most heartwarming.

"Extraordinary times call for extraordinary responses. The country has been facing difficult times because of the COVID-19 pandemic, national lockdown (though easing), and stalled economic activities. It is in these challenging times that those at the bottom-of-the-pyramid deserve extra attention and support," said Jitu Bheda, Chairman - IPGA about the PM's announcement.

"By extending the supply of rice/wheat and pulses till November - a period that would cover important festivals - the government has not only ensured food security for a vast majority of the population but also nutrition security," said Pravin Dongre, Founder Director - IPGA about the announcement.

Pulses are the most economical source of vegetable protein. Pulses are a basic ingredient of diet for the population and provide a perfect mix of biological value when used with cereals. The country carries sufficient stocks of rice/wheat and chana to be able to meet the additional demand.

IPGA once again compliments the government for this progressive initiative and would like to assure policymakers of its continued support for welfare programs.
