**Shri Raosaheb Patil Danve,
Hon. Minister of State, Ministry of Consumer Affairs,
Food and Public Distribution to deliver keynote address at
the 3rd IPGA National Pulses Seminar**

- *Also celebrating World Pulses Day on February 10, 2021*
- *Seminar will be held virtually with live English to Hindi Translation Service for attendees*
- *About 45 national and international experts are expected to speak*
- *Over 2000 delegates from India and overseas expected to attend the seminar*

Mumbai, February 5, 2021: India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry, is all set to host the 3rd National Pulses Seminar on February 10 & 11, 2021. The seminar will be coinciding with the 5th World Pulses Day which will be celebrated on Feb. 10th. With initiatives like the National Pulses Seminar, The Knowledge Series and The Pulses Conclave, IPGA has established itself as India's leading think tank and knowledge hub in the pulses sector.

The keynote address of the seminar will be delivered by Shri Raosaheb Patil Danve, Hon. Minister of State, Ministry of Consumer Affairs, Food and Public Distribution, Govt. of India. The National Pulses Seminar will feature close to 45 National and International Speakers, each of them an acknowledged domain expert in his/her field.

The speakers include prominent personalities like **Mr. Sanjay Agarwal, Secretary – Dept. of Agriculture, Cooperation and Farmers Welfare, Ministry of Agriculture and Farmers Welfare; Ms Leela Nandan, Secretary - Dept. of Consumer Affairs, Ministry of Consumer Affairs, Food and Public Distribution; Adv. Vijay Sardana, Agri-Food Value Chain and Trade Policy Expert; Mr Sunil Kumar Singh, Additional Managing Director, NAFED; Mr Yogesh Thorat, Managing Director - MAHA Farmer Producer Company Ltd;** to name a few. A detailed list with the time schedules of the Seminar is annexed along with.

The seminar will be hosted virtually (online), and registration is free of cost. The link to register for the seminar is <https://forms.gle/W2MEsdWaHHwzavam7>. The seminar is free of cost for all participants. IPGA, keeping in mind the convenience of participating delegates has arranged a live English - Hindi - English translation service.

Apart from its members and stakeholders, IPGA has invited over 1,500 Farmer Producer Organizations (FPOs) and 110 Agricultural Universities from across the country to participate in the seminar.

The 3rd National Pulses Seminar carries forward the legacy created by IPGA through "The Pulses Conclave", one of the world's largest conferences of the Pulses sector held every two years, and "The IPGA Knowledge Series", a monthly webinar series held in the year 2020.

राष्ट्रीय कडधान्य सेमिनारचे आयोजन

नवराष्ट्र न्यूज नेटवर्क

पुणे : इंडिया पल्सेस अँड ग्रेन्स असोसिएशन ही भारताची डाळींचा व्यापार आणि उद्योगासाठी केंद्रीभूत संस्था १० फेब्रुवारी रोजी साजरा केल्या जाणाऱ्या ५व्या जागतिक कडधान्य दिनानिमित्त १० व ११ फेब्रुवारी २०२१ रोजी तिसऱ्या राष्ट्रीय कडधान्य सेमिनारचे आयोजन करणार आहे. कोविड-१९ महामारीने थैमान घातले असल्यामुळे आयपीजीए सेमिनार व्हर्च्युअल आयोजित करणार आले आहे.

भारतीय दलहन एवं अनाज संघ १०
और ११ फरवरी

२०२१ को तीसरे नेशनल पल्सेस सेमिनार की मेजबानी करेगा

पुणे : भारत के दाल व्यापार और उद्योग का शीर्ष निकाय इंडिया भारतीय दलहन एवं अनाज संघ (आईपीजीए) १० और ११ फरवरी, २०२१ को तीसरे नेशनल पल्सेस सेमिनार का आयोजन करेगा। गौरतलब है कि १० फरवरी को ५वां वर्ल्ड पल्सेस डे भी मनाया जाएगा।

मौजूदा कोविड-१९ वैश्विक महामारी को देखते हुए आईपीजीए इस पूरे सेमिनार का वर्चुअल संचालन करेगा और इस २-दिवसीय सेमिनार में भाग लेने के लिये दाल उद्योग के घरेलू और अंतर्राष्ट्रीय व्यापार साझेदारों को आमंत्रित

करेगा। व्यापार की महत्व श्रृंखला के साझेदारों के अलावा, आईपीजीए भारत के सभी किसान उत्पादक संगठनों (एफपीओ) और कृषि विश्वविद्यालयों को भी इस सेमिनार में भाग लेने के लिये आमंत्रित कर रहा है। आईपीजीए ने भाग लेने वाले सभी लोगों के लिये निशुल्क रजिस्ट्रेशन की व्यवस्था करने का निर्णय लिया है।

आईपीजीए के चेयरमैन श्री जीतू भेडा ने इस सेमिनार के बारे में कहा, “आईपीजीए अब दाल और अनाज उद्योग के लिये भारत का अग्रणी थिंक टैंक और नॉलेज हब बन गया है।

इंडिया पल्सेस अँड ग्रेन्स असोसिएशनतर्फे १० व ११ फेब्रुवारी २०२१ रोजी तिसऱ्या राष्ट्रीय कडधान्य सेमिनारचे आयोजन

पुणे : इंडिया पल्सेस अँड ग्रेन्स असोसिएशन (आयपीजीए) ही भारताची राष्ट्रीय व्यापार अर्गनिझेशनसाठी केंद्रीभूत संस्था १० फेब्रुवारी रोजी सातारा येथे जागा-या ५व्या जागतिक कडधान्य दिवसनिमित्त १० व ११ फेब्रुवारी २०२१ रोजी तिसऱ्या राष्ट्रीय कडधान्य सेमिनारचे आयोजन करणार आहे.

सध्या जागभरात कोविड-१९ महामारीने घेयाव घातले असल्यामुळे आयपीजीए संस्थेने सेमिनार व्हर्चुअली आयोजित करणार आहे व कडधान्य उद्योगक्षेत्राच्या आंतरराष्ट्रीय व्यापार भागधारकांस २ दिवस चालणा-या सेमिनारमध्ये सहभाग

घेण्यासाठी आमंत्रित करणार आहे. व्यापार मूल्य साखळीमधील भागधारकांमार्फत आयपीजीए भारतातील सर्व गेजकी उत्पादक संघटना (एएचडीओ) व कृषी विद्यापीठंमधून देशातील सेमिनारमध्ये सहभाग घेण्यासाठी आमंत्रित करत आहे. आयपीजीएने सर्व सहभागीत मोठ्याप्रमाणावर तयार केलेल्या निवेदन पत्राला आहे.

आयपीजीएचे अध्यक्ष श्री. जीतू चेंब्रा या सेमिनारकाळात बोलताना म्हणाले, "आयपीजीए अला इंडीया व कडधान्य उद्योगक्षेत्राच्या संदर्भात भारताचे आघाडीचे विशेषतः समृद्ध व सर्वांगीण हून बनले आहे. हि पल्सेस बंडलनेट्ट अर्गनिझेशन आयपीजीए नेनेज

मितीजला मिळालेल्या पाठकांस आयडी अला वर्ष २०१९ मध्ये राष्ट्रीय कडधान्य सेमिनार आयोजित करण्याची तरती करत आहेत. या सेमिनारमध्ये प्रसिद्धित प्रत्येक व क्षेत्रातील तज्ञ व्यक्तींचा समावेश असेल. ते भारत व जागभरातील कडधान्य विधानांस सर्वाधिक हितार्थ असलेल्या महत्त्वपूर्ण विषयांवर चर्चा करतील."

आयपीजीएचे उपाध्यक्ष श्री. विमल चोडरी या सेमिनारकाळात बोलताना म्हणाले, "भारत सरकारने कडधान्य विभागाला अधिक महत्त्व दिले आहे अर्गनिझेशन-पोसवटी सुधारित विभाग पुणेमधून पुणे-विभाग क्षेत्रांमध्ये राष्ट्रीय स्तरावर कडधान्य क्षेत्राची पोसवटी केरी

आहे. पण, सध्या मूल असलेल्या जागतिक कोविड-१९ महामारीमुळे संस्थेने मूल्य साखळीमध्ये अमोघात्मक निर्माण झाले आहे. फेब्रुवारीमध्ये कोविड महामारीला जवळपास एक वर्ष पूर्ण होईल. सर्व मूल्य साखळी महामारीने आघाडीच्या तुटवडा व जागभराच्या खांबीसाठी संयुक्त उद्योगाचा अर्गनिझेशन पुणेमधून असल्याचा प्रत्येक कडधान्यसाठी अधिक महत्त्व पोसवटी आहे. सेमिनारमध्ये महामारीच्या परिणामांवरून बाबतकडून तज्ञ तयार केणार असून व्यापार भागधारकांस नवीन विद्यमान व्यवसायांमध्ये विविधता आणण्यासाठी महामारीने निर्माण केलेले पर्याय व उपपद्धती नवीन संशोधन क्षेत्रात पाहिले जाणार आहे."

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

- ***National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.***
- ***The Seminar will also celebrate the World Pulses Day as a part of the Seminar***
- ***Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security***
- ***Registration for participants will be FREE OF COST***
- ***IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.***

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. **Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.**

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the

Hunk Golden & Media

options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stakeholders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large." The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics: • Health benefits of pulses and their contribution to public health and nutritional security. • Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry. • Overview of the entire crop year, especially the current rabi crop. • Weather expectations for the forthcoming kharif season in 2021-22. • Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans. • Technological advances, research, and new opportunities in the pulses sector. Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses." Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, "We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience." The National Pulses Seminar has a strong precedence in IPGA's "The Pulses Conclave", one of the world's largest conferences of the Pulses sector held every two years and "The IPGA Knowledge Series", a series of monthly webinars launched in August 2020. While the Conclave over the last 5 editions have had an average attendance of close

Hunk Golden & Media

to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend. The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security. About IPGA India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain. IPGA's vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India's food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas. India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be

hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.

- *The Seminar will also celebrate the World Pulses Day as a part of the Seminar*
- *Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security*
- *Registration for participants will be FREE OF COST*
- *IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.*

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, “IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large.”

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.

Hunk Golden & Media

- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, “The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stakeholders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

Hunk Golden & Media

IPGA's vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India's food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- ***National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.***
- ***The Seminar will also celebrate the World Pulses Day as a part of the Seminar***
- ***Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security***
- ***Registration for participants will be FREE OF COST***
- ***IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.***

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a

Hunk Golden & Media

closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

- **IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.**

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar.*** IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, “IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large.”

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, “The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India

Hunk Golden & Media

has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

- *IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.*

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- ***National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.***
- ***The Seminar will also celebrate the World Pulses Day as a part of the Seminar***
- ***Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security***
- ***Registration for participants will be FREE OF COST***
- ***IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.***

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- *National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.*
- *The Seminar will also celebrate the World Pulses Day as a part of the Seminar*
- *Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security*
- *Registration for participants will be FREE OF COST*
- *IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.*

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and

restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- ***National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.***
- ***The Seminar will also celebrate the World Pulses Day as a part of the Seminar***
- ***Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security***
- ***Registration for participants will be FREE OF COST***
- ***IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.***

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic

Hunk Golden & Media

will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- **National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.**

- **The Seminar will also celebrate the World Pulses Day as a part of the Seminar**
- **Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security**
- **Registration for participants will be FREE OF COST**
- **IPGA has arranged for a LIVE ENGLISH TO HINDI**

TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar.*** IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.

- ***IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.***

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic

Hunk Golden & Media

will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- *National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.*
- *The Seminar will also celebrate the World Pulses Day as a part of the Seminar*
- *Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security*
- *Registration for participants will be FREE OF COST*
- *IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.*

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stake holders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

IPGA’s vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India’s food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

IPGA Management Committee unveiled the logo for the National Pulses Seminar 2021

- *National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.*
- *The Seminar will also celebrate the World Pulses Day as a part of the Seminar*
- *Discussions IPGA will also host discussions on nutrition and the role of pulses in enhancing nutritional security*
- *Registration for participants will be FREE OF COST*
- *IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.*

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.
- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, "The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing

Hunk Golden & Media

global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

भारतीय दलहन एवं अनाज संघ करेगा तीसरे नेशनल पल्सेस सेमिनार की मेजबानी

10 और 11 फरवरी, 2021 को आयोजित होगा तीसरे नेशनल पल्सेस सेमिनार

मुंबई। भारत के दाल व्यापार और उद्योग का शीर्ष निकाय इंडिया भारतीय दलहन एवं अनाज संघ (आईपीजीए) 10 और 11 फरवरी, 2021 को तीसरे नेशनल पल्सेस सेमिनार का आयोजन करेगा। गौरतलब है कि 10 फरवरी को 5वां वर्ल्ड पल्सेस डे भी मनाया जाएगा।

मौजूदा कोविड-19 वैश्विक महामारी को देखते हुए आईपीजीए इस पूरे सेमिनार का वर्चुअल संचालन करेगा और इस 2-दिवसीय सेमिनार में भाग लेने के लिये दाल उद्योग के घरेलू और अंतर्राष्ट्रीय व्यापार साझीदारों को आमंत्रित करेगा। व्यापार की महत्व श्रृंखला के साझीदारों के अलावा, आईपीजीए भारत के सभी किसान उत्पादक संगठनों (एफपीओ) और कृषि विश्वविद्यालयों को भी इस सेमिनार में भाग लेने के लिये आमंत्रित कर रहा है। आईपीजीए ने भाग लेने वाले सभी लोगों के लिये निशुल्क रजिस्ट्रेशन की व्यवस्था करने का निर्णय लिया है।

आईपीजीए के चेयरमैन श्री जीतू भेडा ने इस सेमिनार के बारे में कहा, "आईपीजीए अब दाल और अनाज उद्योग के लिये भारत का अग्रणी थिंक टैंक और नॉलेज हब बन गया है। द पल्सेस कॉन्क्लेव और द आईपीजीए नॉलेज सीरीज की सफलता के बाद, अब हम साल 2021 में नेशनल पल्सेस सेमिनार की मेजबानी की तैयारी कर रहे हैं। इस सेमिनार में प्रबुद्ध वक्ता और डोमैन विशेषज्ञ होंगे, जो भारत और विश्व में दलहन क्षेत्र के हितों के विषयों पर गहन चर्चा करेंगे।"

इस सेमिनार के बारे में आईपीजीए के वाइस चेयरमैन श्री बिमल कोठारी ने कहा, "भारत सरकार ने दलहल सेक्टर को प्राथमिकता दी है और कृषि-विपणन के क्षेत्र में बेहतरीन सुधारों की एक श्रृंखला की घोषणा की है, जैसे किसानों के लिये मार्केटिंग की स्वतंत्रता बढ़ाना। हालांकि, मौजूदा वैश्विक कोविड-19 महामारी ने पूरी महत्व श्रृंखला को असंतुलित किया है।

आईपीजीए के फाउंडर डायरेक्टर श्री प्रवीण डोंगरे ने इस सेमिनार के बारे में कहा, "सेमिनार में किसान उत्पादक संगठनों और कृषि विश्वविद्यालयों को आमंत्रित करने का हमारा फैसला विवेकपूर्ण है। हमारा मानना है कि अलग-अलग दालों के उत्पादन और विदेशों में उनके मूल्य की संभावना पर पैनल चर्चाओं से भारतीय किसानों को वैश्विक व्यापार की बेहतर समझ पाने में मदद मिलेगी और उनके लिये घरेलू बाजारों से अपेक्षित मूल्यों के अलावा निर्यात के अवसर खोजना भी संभव होगा।

इंडिया पल्सेस अँड ग्रेन्स असोसिएशनतर्फे १० व ११ फेब्रुवारी २०२१ रोजी तिसऱ्या राष्ट्रीय कडधान्य सेमिनारचे आयोजन

- राष्ट्रीय कडधान्य सेमिनारचे व्हर्चुअली आयोजन आणि जगभरातून १५०० हून अधिक प्रतिनिधी उपस्थित असण्याची अपेक्षा.
- सेमिनारचा भाग म्हणून सेमिनारमध्ये जागतिक कडधान्य दिन (वर्ल्ड पल्सेस डे) देखील साजरा करण्यात येणार
- डिसकशन्स आयपीजीएकडून पौष्टिक सुरक्षितता वाढवण्यामध्ये कडधान्यांचे पोषण व योगदानाबाबत चर्चेचे आयोजन देखील करण्यात येणार
- सहभागींसाठी नोंदणी मोफत असेल
- आयपीजीएने लाइव्ह इंग्रजी ते हिंदी भाषांतर सेवेची व्यवस्था केली आहे, ज्यामुळे उपस्थितांना प्रवक्तांचे भाषण इंग्रजी व हिंदी भाषेमध्ये ऐकण्याची सुविधा असेल

पुणे १६ डिसेंबर २०२०... इंडिया पल्सेस अँड ग्रेन्स असोसिएशन (आयपीजीए) ही भारताची डाळींचा व्यापार आणि उद्योगासाठी केंद्रीभूत संस्था १० फेब्रुवारी रोजी साजरा केल्या जाणा-या ५व्या जागतिक कडधान्य दिनानिमित्त १० व ११ फेब्रुवारी २०२१ रोजी तिस-या राष्ट्रीय कडधान्य सेमिनारचे आयोजन करणार आहे.

सध्या जगभरात कोविड-१९ महामारीने थैमान घातले असल्यामुळे आयपीजीए संपूर्ण सेमिनार व्हर्चुअली आयोजित करणार आहे व कडधान्य उद्योगक्षेत्राच्या आंतरराष्ट्रीय व्यापार भागधारकांना २ दिवस चालणा-या सेमिनारमध्ये सहभाग घेण्यासाठी आमंत्रित करणार आहे. व्यापार मूल्य साखळीमधील भागधारकांव्यतिरिक्त आयपीजीए भारतातील सर्व शेतकरी उत्पादक संघटना (एफपीओ) व कृषी विद्यापीठांना देखील सेमिनारमध्ये सहभाग घेण्यासाठी आमंत्रित करत आहे. आयपीजीएने सर्व सहभागींना मोफतपणे प्रवेश देण्याचा निर्णय घेतला आहे.

आयपीजीएचे अध्यक्ष श्री. जीतू भेडा या सेमिनारबाबत बोलताना म्हणाले, ”आयपीजीए आता डाळी व कडधान्य उद्योगक्षेत्राच्या संदर्भात भारताचे आघाडीचे विशेषज्ञ समूह व माहितीपूर्ण हब बनले आहे. दि पल्सेस कॉन्क्लेव्ह आणि दि आयपीजीए नॉलेज सिरीजला मिळालेल्या यशानंतर आम्ही आता वर्ष २०२१ मध्ये राष्ट्रीय कडधान्य सेमिनार आयोजित करण्याची तयारी करत आहोत. या सेमिनारमध्ये प्रतिष्ठित प्रवक्ते व क्षेत्रातील तज्ञ व्यक्तींचा समावेश असेल. ते भारत व जगभरातील कडधान्य विभागांना सर्वाधिक हिताच्या असलेल्या महत्त्वपूर्ण विषयांवर चर्चा करतील.”

या सेमिनारमध्ये आरोग्य व पोषण, तंत्रज्ञान, व्यापार, अर्थशास्त्र व सार्वजनिक धोरण, वैज्ञानिक संशोधन, हवामानशास्त्र, उद्योगक्षेत्र इत्यादी क्षेत्रांमधील तज्ञ व्यक्ती असणार आहेत आणि ते पुढील विषयांवर सविस्तरपणे चर्चा करतील.

Hunk Golden & Media

- कडधान्यांचे आरोग्यविषयक लाभ आणि सार्वजनिक आरोग्य व पोषण सुरक्षिततेप्रती त्यांचे योगदान.
- २०२० मध्ये सादर करण्यात आलेला कृषीक्षेत्रासंबंधित सुधारणा कायदा आणि स्थानिक कडधान्य उत्पादन व उद्योगक्षेत्रावर त्याचा परिणाम.
- संपूर्ण पीक वर्षाचा, विशेषतः सध्याच्या रबी पीकाचा आढावा.
- २०२१-२२ मधील आगामी खरिप हंगामासाठी हवामानाची अपेक्षा.
- तूर, उडद, मूग, मसूर, देशी व काबुली चणा, वाटाणे व द्विदल धान्यांचा समावेश असलेले प्रॉडक्ट पॅनेल्स.
- कडधान्य विभागामधील तंत्रज्ञान प्रगती, संशोधन व नवीन संधी.

आयपीजीएचे उपाध्यक्ष श्री. बिमल कोठारी या सेमिनारबाबत बोलताना म्हणाले, "भारत सरकारने कडधान्य विभागाला अधिक महत्त्व दिले आहे आणि शेतकऱ्यांसाठी सुधारित विपणन मुभेसह कृषी-विपणन क्षेत्रामध्ये उल्लेखनीय सुधारणा करण्याची घोषणा केली आहे. पण, सध्या सुरू असलेल्या जागतिक कोविड-१९ महामारीमुळे संपूर्ण मूल्य साखळीमध्ये असंतुलन निर्माण झाले आहे. फेब्रुवारीमध्ये कोविड महामारीला जवळपास एक वर्ष पूर्ण होईल. सर्व मूल्य साखळी सहभागींनी अन्नधान्यांचा तुटवडा न जाणवण्याच्या खात्रीसाठी संतुलन राखण्याचा आणि स्थिती पूर्वपदावर आणण्याचा प्रयत्न करण्यासाठी अथक मेहनत घेतली आहे. सेमिनारमध्ये महामारीच्या परिणामांकडे बारकाईने लक्ष देण्यात येणार असून व्यापार भागधारकांना त्यांच्या विद्यमान व्यवसायांमध्ये विविधता आणण्यासाठी महामारीने निर्माण केलेले पर्याय व उपलब्ध नवीन संधींकडे देखील पाहिले जाणार आहे."

आयपीजीएचे संस्थापकीय संचालक श्री. प्रविण डोंगरे या सेमिनारबाबत बोलताना म्हणाले, "आम्ही शेतकरी उत्पादक संघटना व कृषी विद्यापीठांना सेमिनारमध्ये सहभाग घेण्यासाठी आमंत्रित करण्याचा निर्णय घेतला आहे. आमचा विश्वास आहे की, मूलतः परदेशातील उत्पादन व किंमतींच्या आकडेवारीवर आधारित कडधान्यांवरील पॅनेल चर्चेमुळे भारतीय शेतकऱ्यांना जागतिक व्यापाराचा अधिक चांगला दृष्टीकोन मिळण्यास मदत होईल आणि देशांतर्गत बाजारपेठांकडून अपेक्षेनुसार किंमतींच्या व्यतिरिक्त निर्यातीच्या संधींचा शोध घेता येईल. आम्ही लाइव्ह इंग्रजी ते हिंदी भाषांतर सेवेची देखील व्यवस्था केली आहे. ज्यामुळे सहभागींना त्यांच्या सोयीनुसार आवडीच्या भाषेमध्ये भाषण ऐकण्यास मिळेल."

दर दोन वर्षांनी पल्सेस विभागासाठी आयोजित केली जाणारी जगातील सर्वात मोठी परिषद आयपीजीएची 'दि पल्सेस कॉन्क्लेव्ह' आणि ऑगस्ट २०२० मध्ये सादर करण्यात आलेली मासिक वेबिनार्सची सिरीज 'दि आयपीजीए नॉलेज सिरीज'पेक्षा राष्ट्रीय कडधान्य सेमिनारला भरीव प्राधान्य आहे.

कॉन्क्लेव्हला मागील ५ पर्वांमध्ये जवळपास १००० प्रतिनिधींची सरासरी उपस्थिती राहिली आहे, तर दि नॉलेज सिरीज वेबिनार्सला भारत व जगभरातून प्रत्येक वेबिनारसाठी जवळपास ९०० सहभागींच्या सरासरी उपस्थितीसह उत्स्फूर्त प्रतिसाद मिळाला आहे. या सेमिनारचे व्हर्च्युअली आयोजन केले जाणार असल्यामुळे आयपीजीएला भारत व जगभरातील संपूर्ण कडधान्य मूल्य साखळीमधून १५०० हून अधिक प्रतिनिधी सहभाग घेण्यासोबत उपस्थित राहण्याची अपेक्षा आहे.

राष्ट्रीय कडधान्य सेमिनार ५वा जागतिक कडधान्य दिन देखील साजरा करणार आहे. या कार्यक्रमांमध्ये आरोग्य, पोषण व पोषणात्मक सुरक्षिततेमध्ये कडधान्यांच्या मूलभूत भूमिकेवरील चर्चासत्रांचा समावेश आहे. तसेच कडधान्यांचे पौष्टिक मूल्य वाढवण्याचे विविध प्रकार व मार्गांचा शोध घेतला जाणार आहे.

आयपीजीए कडधान्यांचे लाभ आणि पौष्टिक सुरक्षिततेप्रती त्यांच्या योगदानाबाबत चर्चा करण्यासाठी प्रतिष्ठित न्यूट्रिशनिस्ट्स, वैद्यकीय व्यावसायिक, आहारतज्ञ इत्यादींना आमंत्रित करणार आहे.

आयपीजीए विषयी:

भारतातील डाळी आणि धान्य व्यापार व तत्संबंधी उद्योगांची मध्यवर्ती संस्था असलेल्या इंडिया पल्सेस अँड ग्रेन्स असोसिएशनचे (आयपीजीए) ४०० हून अधिक प्रत्यक्ष व अप्रत्यक्ष सभासद आहेत, ज्यांत व्यक्ती, कॉर्पोरेट्स तसेच स्थानिक डाळ व्यापारी आणि प्रोसेसर्स संघटनांचा समावेश आहे. या सदस्यांच्या माध्यमातून ही संघटना डाळीचे उत्पादन, प्रक्रिया, धान्यसाठवणूक आणि आयात उद्योग अशा संपूर्ण मूल्यसाखळीचा भाग असलेल्या १०,००० लाभार्थींशी जोडली गेली आहे.

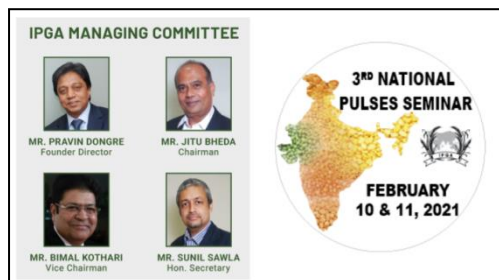

भारतीय डाळी आणि धान्य उद्योग व व्यापार जागतिक स्तरावरील स्पर्धेत टिकून राहण्यास सक्षम बनाव, व हे ध्येय साध्य करताना भारताच्या अन्न व पोषण सुरक्षेलाही बळ मिळावे हे आयपीजीएचे लक्ष्य आहे. स्थानिक कृषी-व्यापार क्षेत्रामध्ये नेतृत्वाची भूमिका साकारण्याची व भारतीय बाजारपेठेत सहभागी घटकांमध्ये तसेच भारत व त्यांच्या परदेशातील सहकाऱ्यांमध्ये सुदृढ नातेसंबंधांची जोपासना करण्यासाठी जागतिक स्तरावर अधिक सक्रिय भूमिका निभावण्याची जबाबदारी आयपीजीएने आपल्या शिरावर घेतली आहे.

India Pulses and Grains Association to Host 3rd National Pulses Seminar on February 10th and 11th, 2021

Mumbai, Maharashtra, India: *National Pulses Seminar will be held virtually and over 1500 delegates from all over the world expected to attend.*

- *The Seminar will also celebrate the World Pulses Day as a part of the Seminar*
- *Discussions IPGA will also host discussions on*

nutrition and the role of pulses in enhancing nutritional security

- **Registration for participants will be FREE OF COST**
- **IPGA has arranged for a LIVE ENGLISH TO HINDI TRANSLATION service so attendees will have the option to listening to the speakers in English and Hindi.**

India Pulses and Grains Association (IPGA), the nodal body for India's pulses trade and industry will be hosting the 3rd National Pulses Seminar on February 10 & 11, 2021 to coincide with the 5th World Pulses Day which will be celebrated on Feb. 10th.

IPGA, owing to the ongoing Covid-19 global pandemic, will be conducting the entire seminar virtually and inviting domestic and international trade stakeholders of the pulses industry to participate in the 2-day seminar. ***Apart from the stakeholders from the trade value chain, IPGA is also inviting all Farmer Producer Organizations (FPOs) and Agricultural Universities in India to participate in the Seminar. IPGA HAS DECIDED TO EXTEND THE REGISTRATION TO ALL PARTICIPANTS FREE OF COST.***

Mr. Jitu Bheda, Chairman – IPGA, speaking about the Seminar said, "IPGA has now become India's leading think tank and knowledge hub on the pulses and grains industry. After the success of The Pulses Conclave and The IPGA Knowledge Series, we are now preparing to host the National Pulses Seminar in 2021. The Seminar will feature eminent speakers and domain experts who will discuss in-depth and explore topics of critical interest to the pulses sector in India and the world at large."

The Seminar will have domain experts from health and nutrition, technology, trade, economics and public policy, scientific research, meteorology, industry, etc. broadly covering the following topics:

- Health benefits of pulses and their contribution to public health and nutritional security.
- Agriculture sector reforms introduced in 2020 and their impact on domestic pulses production and industry.
- Overview of the entire crop year, especially the current rabi crop.

Hunk Golden & Media

- Weather expectations for the forthcoming kharif season in 2021-22.
- Product panels featuring pigeon peas, urad, moong, masoor, desi and kabuli chana, peas and beans.
- Technological advances, research, and new opportunities in the pulses sector.

Mr. Bimal Kothari, Vice Chairman – IPGA, speaking about the Seminar said, “The Government of India has ear-marked the pulses sector as a priority sector and announced a series of path-breaking reforms in the agri-marketing space including enhanced marketing freedom for farmers. However, the ongoing global COVID-19 pandemic has caused an imbalance in the entire value chain. The COVID pandemic will be almost a year old by February and all value chain participants have worked hard to try and restore the balance to ensure there is no shortage of food grains. The Seminar will not only take a closer look at the effects of the pandemic but also at the new opportunities it has created and the options available to trade stakeholders to diversify in their existing businesses.”

Mr. Pravin Dongre, Founder Director – IPGA, speaking about the seminar said, “We have taken a conscious decision to invite Farmer Producer Organizations and Agricultural Universities to participate in the Seminar. We believe that the panel discussions on individual pulses covering production and price outlooks in overseas origin will help Indian farmers get a better perspective of the global trade and also possible explore export opportunities apart from the prices they can expect from the domestic markets. We have also arranged for a live English to Hindi translation service to give the participants the option to listen in a language of their choice and convenience.”

The **National Pulses Seminar** has a strong precedence in IPGA’s “**The Pulses Conclave**”, one of the world’s largest conferences of the Pulses sector held every two years and “**The IPGA Knowledge Series**”, a series of monthly webinars launched in August 2020.

While the Conclave over the last 5 editions have had an average attendance of close to 1000 delegates, The Knowledge Series webinars have received an overwhelming response with an average attendance of around 900 participants for each webinar from India and overseas. **Since the Seminar will be held virtually, IPGA expects over 1500 delegates from the entire pulses value chain from India and overseas to participate and attend.**

The National Pulses Seminar to celebrate the 5th World Pulses Day, will include sessions on the fundamental role of pulses in health, nutrition, and nutritional security, and explore various dimensions and avenues of enhancing the nutritional value of pulses. IPGA will be inviting noted Nutritionists, Medical Professionals, Dieticians, etc to speak about the benefits of Pulses and their contribution to nutritional security.

About IPGA

India Pulses and Grains Association (IPGA), the nodal body for pulses and grains trade and industry in India has over 400 direct and indirect members which include individuals, corporates as well as Regional Pulses Traders and Processors Associations taking its pan-India reach to over 10,000 stakeholders involved in the farming, processing, warehousing and import business of pulses across the entire value chain.

Hunk **Golden** & Media

IPGA's vision is to make Indian pulses and grains industry and trade globally competitive; and in so doing, help advance India's food and nutrition security. IPGA takes the onus of essaying a leadership role in the domestic agri-business and play a more proactive role in the global domain to foster healthy relations among Indian market participants and between India and all associates overseas.
